

AUGUST 2009

NCC HOLDS ROUND TABLE EVENT FOR DAYTON REGION-ISRAEL AEROSPACE MISSION – MEMBER COMPANIES INVITED TO PRESENT THEIR PRODUCTS AND TECHNOLOGIES

NCC is hosting a special round table event and tours on Wednesday Sept 9, 2009 from 11:30 a.m. to 5 p.m. for the DAYTON REGION-ISRAEL AEROSPACE MISSION. One of the Center's primary objectives is to promote advanced materials through relationship building and the extension of its network through unique events.

As part of the round table, a number of NCC member companies will spend time one-on-one with 10 Israeli companies talking about advanced materials technologies and capabilities.

Exhibitors will remain stationary while representatives of the Israeli companies

The National Composite Center

rotate to different tables in 20 minute intervals. Round table activities will commence following lunch. NCC member companies and community businesses can still participate in the round table by contacting Joan Farus at jfarus@compositecenter.org.

A cooperative effort between Dayton and Montgomery Counties, the Israel Export and Cooperation Institute and the Municipality of Haifa, the DAYTON REGION-ISRAEL AEROSPACE MISSION will focus on Ohio's Aerospace HUB which includes the UAV, defense, sensors and advanced materials industries from Sept. 7-10, 2009.

CTS WILL HOLD OPEN HOUSE EVENT FOR NCC MEMBER COMPANIES AND AREA BUSINESS COMMUNITY

Composite Technical Services (CTS) will hold an Open House September 15, 2009 for the NCC Member community and Dayton Region leaders. CEO Enrico Ferri, Director of Materials Elena Benedetti and Marco Volpi, Technical Director for the Filament Winding Division will be present for the event.

NCC's newest member company, CTS provides high-performance bio-based resins, flame retardants, composite gas cylinders and filament winding machines.

The company plans to establish R&D facilities for the development of products ranging from the composite sector to the plastics industry, and will also market

existing products developed together with Italian business partners CimtecLab, Sepma and VEM.

CTS offers innovative products for polyurethane, epoxy resin and flame retardant applications in the bio-plastics, thermoplastics and thermosets industries.

To attend the event, contact Business Development Manager Debra Talentino at debi@ctsusa.us.
